

I urge the FCC to maintain strict enforcement of the no-call regulations. In my home I expect to be the gatekeeper and I do believe the constitution protects my right to do so. Unsolicited marketing phone calls are disruptive nuisances and should be prohibited. I do not expect to be a victim to unsolicited marketing in my home. Please ensure the enforcement of the no-call regs to the maximum extent of the law!! to protect my constitutional right to not be disturbed in my home.
